IN JAIL.

One of the Suspected Nogales Bank Robbers Here-

Last evening Bob Forrest a well known cowboy was brought over from Bisbee by a deputy Sheriff and placed in the county jail on charge of being one of the suspected Nogales Bank

The arrest was mentioned in the PROSPECTOR Bisbee correspondence yesterday. He was arrested by Deputy Sheriff Johnson and Sheriff Leatherwood of Pima county. Forrest when confronted expressed surprise and went willingly with the others, claiming he could prove an alabi at the time of the robbery. He was sent over pending further developments and examination.

A PROSPECTOR reporter called to interview the prisoner but under the circumstances it was deemed unwise to allow any statement published whatever for the possibility of interfering with the work and plans of the authorities until an opportune time. It has deceloped that more than

likely the robbers of the Separ postoffice and grocery store at Separ, New Mexico and those who attempted the holdup at Nogales are one and the same gang. The band are known to the officers being some six or eight cowboys who until recently were riding the ranges in the Sulphur Spring valley and in one or two instances quit good jobs and disappeared together. Whether or not Forrest is guilty is unknown, but as he was with the party considerable of the time it is believed he knows something of the affair. After the robbery at Separ the party are known to have made for this section and the supposition is they went on to Nogal a to hold up up the bank.

The posse trailed the robbers from Nogales to Lochiel, and thence to te the mountains about 15 miles below the line. A message received at the Sheriff's office last night, states the trail leading back across the line into Mexico had just been found and would be followed, thus making the capture of the band possible as deputies at all points have been notified and are on the look out.

Forrest is a young man, and has a reputation of being a peaceful citizen, Although be is not believed to have participated in the affair, may be acquainted with some facts, and therefore an important witness.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: 'I have no besitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the see of my wife. While I was pastor of the Baptist Church at Rivers Junetion she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and t seemed as if she could not survive them. First among the projects upon which which Southern Arizons must rely for er future development comes the storage of water. No loyal citizenshould lose sight of this fact. With water storage there are presibilities shead that include the tillage of many millions of scres of fertile desert land in Arizona and it means an advancement that would in ten years place our territory on the roll of the great states of the union.
